

Internship - Engineering, Tech & Design

Front End Engineer, Intern/Co-op

(Menlo Park, CA)

Facebook was built to help people connect and share, and over the last decade our tools have played a critical part in changing how people around the world communicate with one another. With over a billion people using the service and more than fifty offices around the globe, a career at Facebook offers countless ways to make an impact in a fast growing organization.

Are you interested in building products used by hundreds of millions of people? Do you like shipping code at a rapid pace? Facebook is seeking Front End Engineering interns who are passionate about building mobile and desktop web applications. This internship is based in our Menlo Park headquarters.

Responsibilities

- Work with Product Designers to implement the next generation of Facebook products
- Build efficient and reusable front-end abstractions and systems
- Identify and address performance bottlenecks
- Participate in design and code reviews
- Interact with other team members to incorporate their innovations and vice versa
- Identify and communicate best practices for front-end engineering

Requirements

- Ability to write high-performance, reusable code for UI components
- Aware of but not reliant on Object Oriented JavaScript Frameworks (Prototype JS, MooTools, Dojo, etc.)
- Experience developing rich applications with HTML/CSS/JS
- Passion for performance debugging and benchmarking
- Pursuing BS or MS degree in Computer Science or a related technical field

Apply

As part of our dedication to the diversity of our workforce, Facebook is committed to Equal Employment Opportunity without regard for race, color, national origin, ethnicity, gender, protected veteran status, disability, sexual orientation, gender identity, or religion.

If you need assistance or an accommodation due to a disability, you may contact us at accommodations-ext@fb.com or you may call us at 1+650-308-7837.
